The Tourist Office of Enghien-les-Bains offers original and entertaining city tours.

The Tourist Office guide, welcomes visitors who would like to discover and explore Enghien-les-Bains from April to October.

These visits target both tourists and locals. They can discover hidden features of the city thereby becoming our city best promoters.

And there are many questions. Where does the name of Enghien come from? Where was the spring of Roy? How did this creek transform the city into an important attraction north of Paris?
